Diamond Dowel Plate & Sleeve

Material : ABS Sleeve & MS Plate

Dimension : 110*110 mm

Thickness of Plate : 6, 8, 10 mm

Steel Grade : MS

Application : For Heavy Duty Flooring

Total Weight : 635 gram

Shape : Diamond & Square (Speed Dowel)

Diamond Dowels are in MS Plate & Sleeve. Dowels are suited for construction joints in concrete slabs and pavements. They transfer vertical loads across the joint and minimize differential deflection between adjacent slab panels under load.

Armor Joints

Length : 2500 mm

Width : 150 mm

Thickness of Plate : 2 mm

No. of Dowel Plate : 5

Cold Drawn Steel : 10 mm * 40 mm

Total Weight : 24 Kg

Coating : GI Coated, Paint Coated

Benefit :- To avoid random crack

Simple Installation : Easy Sleeve Installation, form removal the next day, and Dowel Insertion. Better performing pavements slabs : Eliminates out of joint Cracking.
